Education

University of Illinois at Urbana-Champaign

Graduation: May 2027

BS in Information Sciences + Data Science, Minor in Computer Science + Economics — Dean's List GPA: 3.95/4.00

Relevant Coursework: Data Structures, Intro to CS I & II, Data Science I, II & III, Database Concepts, Discrete Structures, Linear Algebra, Calculus I & II, AI-Web App Development, Economic Statistics, Microeconomics, Macroeconomics

Experience

Deloitte

Jun 2025 – Aug 2025

AI & Data Intern, Technology & Transformation

Delhi, India

- Built an enterprise AI agent using LangChain, Llama and OpenAI APIs with memory-backed RAG pipelines to manage contextual analytics queries across 40+ departments serving 37,000+ employees.
- Trained 10+ ML models using scikit-learn, including logistic regression to identify key attrition drivers, developed a Python-based predictive system integrated with PostgreSQL and HuggingFace API.
- Engineered a Flask-based full-stack LLM employee analytics platform using MVC architecture reducing ad-hoc reporting turnaround time by 30% through contextual query interpretation.

Revamp AI (UIUC)

Jan 2025 – Present

Co-Founder & Partner, Agentic AI Implementation Lab

Champaign, IL

- Founded a student-run agentic AI and technology consulting RSO, recruiting 30+ members to design customized AI and full-stack tech solutions for early-stage startups.
- Developed a production-ready virtual realtor conversational AI for a New York-based real estate startup using FastAPI, React, Node.js, Deepgram, Twilio, and ElevenLabs with AWS deployment and Fair Housing compliance logic.
- Leading secure, scalable AI system architecture development for 3+ healthcare AI startups focused on compliant patient data handling and cloud-native infrastructure.

Office of Technical Consulting and Research (OTCR)

Sept 2024 – Present

Corporate Affairs Partner

Champaign, IL

- Leading a team of 20+ members engaging recruiters across 200+ companies to build structured recruitment pipelines.
- Designed a centralized, queryable CRM-style tracking system to monitor response rates, pipeline health, and conversion trends across 5+ large-scale recruiting events.

Project Manager

- Led 10+ consultants through AGILE based strategic oversight in competitor SWOT analysis, mapping consumer personas and market CAGR, building GTM strategy across GPU compute, Quantum, Publishing, Entertainment sectors.
- Directed full-stack redesign of client-facing website using Git, CI/CD workflows, Vercel deployment to improve engagement.

Office of the Provost, UIUC

Sept 2025 – Present

Undergraduate Data and Design Analyst

Champaign, IL

- Rebuilt the Student Success website and applied data normalization techniques in Smartsheets, using semantic analysis on data to support strategic planning across 28+ academic units, led to 60% increase in senior survey response rate.
- Synthesized Learning outcomes survey results and built Power BI dashboards monitoring 10+ engagement and performance metrics, reducing manual reporting workload by 25% within one year.

Research Projects

Exploratory Research on Acoustic Scene Classification (Python)

Oct 2021 – Feb 2024

- Processed MFCC and spectrogram-based acoustic datasets and trained supervised learning models to classify real-world environmental soundscapes at Indian Institute of Technology, Delhi (CARE).

Real-Time Operating Systems for Autonomous Drone Control

Jun 2022 – Dec 2023

- Analyzed RTOS scheduling latency, authored publication in the International Journal of Innovative Research Thoughts.

Skills & Interests

Languages: Python, SQL, R, Java, C++, JavaScript, TypeScript, React.js, Next.js, Node.js, HTML, Tailwind CSS

Frameworks & Tools: LangChain, Vector Databases, LLMs, APIs, Flask, FastAPI, Django, PostgreSQL, MongoDB, Git, CI/CD, AWS, Power BI, Streamlit, Deepgram, Twilio, ElevenLabs, Jira, Trello, VS Code, JetBrainsIDE, Docker

Interests: Agentic AI, Technology Strategy, Entrepreneurship, Economics, Music, Psychology, Sustainability
